EDUCATION

Bachelor's Degree

University of Toronto
2017

SKILLS

• Front-end

- React.js
- Next.js
- Vue.js
- Angular.js
- HTML
- CSS (Tailwind, AntD, MUI)
- Electron
- Redux

• Back-end

- Node.js
- Express.js
- .NET
- RESTful API

• Database

- MySQL
- MongoDB
- PostgreSQL

• Version Control

- GitHub
- GitLab

PROFESSIONAL OVERVIEW

Experienced Full Stack Web Developer with 8 years of expertise in designing, developing, and deploying scalable web applications. Skilled in both frontend and backend development, with a strong command of modern technologies and frameworks. Passionate about building high-performance, user-friendly applications and optimizing system architecture for efficiency and scalability.

WORK EXPERIENCE

Full Stack Developer

TechNova Solutions, USA

2023- 2024

- Contributed to building scalable, user-focused web applications for clients across various industries, including retail and healthcare.
- Utilized JavaScript, Node.js, and React to create dynamic user interfaces and efficient backend services.
- Developed custom APIs and integrated external services to enhance product functionality and user experience.
- Played a key role in maintaining project timelines, ensuring high-quality code through code reviews and unit testing.

Backend Developer

WebFlex Innovations, USA

2022- 2023

- Led the design and development of backend systems and services for several client projects using Node.js, PostgreSQL, and Redis.
- Focused on creating efficient, scalable API endpoints to handle large amounts of data.
- Implemented user authentication and authorization features using JWT and OAuth for secure login processes.
- Automated server deployments using Docker and Kubernetes, enabling continuous delivery and monitoring.
- Worked closely with frontend developers to ensure seamless data transfer between the server and client-side applications.

Frontend Developer

DevEdge Solutions, USA

2020- 2022

- - Built dynamic, interactive, and mobile-responsive web pages using React and CSS Flexbox/Grid.
- - Focused on improving the UI/UX design to enhance user engagement and overall usability of the web applications.
- - Implemented responsive design principles to ensure that applications worked seamlessly across devices (mobile, tablet, desktop).

- - Utilized tools like React Hooks, Context API, and Redux to manage state and data flow.
- - Worked in an Agile environment, participating in sprints and providing regular feedback on design and functionality.

Frontend Developer

CloudByte Technologies, USA

2018- 2020

- Created visually appealing and responsive websites using React.js and Styled Components for styling.
- Developed frontend solutions for e-commerce platforms, integrating with backend systems to manage inventory, shopping carts, and checkout processes.
- Worked on performance improvements by lazy-loading images and assets, reducing page load times.
- Utilized React Query to manage server state and optimize API calls, improving the overall frontend performance.
- Engaged with clients to gather feedback on the UI/UX and iterated on designs based on their input.
